NEED: compact product in containers to reduce shipping and container costs

SOLUTION: a vibratory grid table was fabricated to accommodate the customer's load requirements and to fit into their existing packing assembly line

MODEL: GT-4446-RE-9-6(2)
Grid Table 44" x 46"

PRODUCT: dry cereal flakes

CONTACT FINISH: Finish Vista Green Enamel with Type 3 Welds & Surfaces

ISOLATION: (4) #17600020 Air Mounts

DRIVES: (2) RE-9-6 Rotary Electric Vibrator

CONTROLS: 2 hp VFC with Baldor Brake

FEATURES: This was a very innovative design: the grid structure doubled as drive support structure enabling the table to be very low profile, meeting the customer's specifications.
