

# CLEVELAND VIBRATOR FLAT DECK VIBRATORY TABLES

## MODEL FA

The Cleveland Vibrator Company Model FA, Flat Deck, is the most widely used vibratory table. Model FA is commonly used to settle material in cartons, drums, kegs, boxes, and bags. Other applications include removing air from poured concrete and refractories.

There are four standard deck sizes shown with load capacities up to 4,000 lbs. Custom designed vibratory table sizes are also available to meet your application requirements.

Model FA vibratory tables feature inflatable air bag isolation or marshmallow mounts that provide quiet unit operation and superior isolation plus the advantage of adjusting table height under varying loads. Both air and electric powered FA tables are equipped with controls for adjusting vibration intensity. Force and frequency of air powered models are adjustable by air pressure regulation while electric powered tables are easily adjusted by mechanical means, or can be furnished with a variable frequency controller. Contact our fabricated equipment sales department at **800-221-3298** for more information.

FA SERIES	FLAT DECK TABLES			
UNIT	DECK WIDTH	DECK LENGTH	DECK HEIGHT	NORMAL LOAD CAPACITY*
FA-2424	24	24	24	300-1000 lbs.
FA-3030	30	30	24	300-2000 lbs.
FA-3636	36	36	24	500-2000 lbs.
	36	36	30	2000-4000 lbs.
FA-4848	48	48	24	500-2000 lbs.
	48	48	30	2000-4000 lbs.

**All dimensions are in inches.**

\*Designs for 10,000 lbs.+ loads are also available.

# CLEVELAND VIBRATOR FLAT DECK VIBRATORY TABLES

## MODEL FA-O

The Cleveland Vibrator Model FA-O, Low Profile Flat Deck, vibratory table is equipped with twin outboard drives and air bag isolation mounts as standard equipment. FA-O tables are ideal for compacting drums and palletized boxes containing palletized plastic, chemicals, frozen foods (corn, peas, etc.), peanuts, and automotive parts. Four standard deck sizes are available with either air powered vibratory drives or electric powered vibratory drives handling up to 4,000 lbs. Custom designed table sizes are also available for heavier loads. Contact our fabricated equipment sales department at **800-221-3298** for more information.

FA-O SERIES	LOW PROFILE FLAT DECK TABLES			
UNIT	DECK WIDTH	DECK LENGTH	DECK HEIGHT	NORMAL LOAD CAPACITY
FA-O-2424	24	24	7	300-1000 lbs.
FA-O-3030	30	30	7	300-2000 lbs.
FA-O-3636	36	36	7	500-2000 lbs.
	36	36	10	2000-4000 lbs.
FA-O-4848	48	48	7	500-2000 lbs.
	48	48	14	2000-4000 lbs.
All dimensions are in inches.				

Deck sizes shown are standard. Custom sizes can be supplied to accommodate your exact needs. Contact fabricated equipment sales at **800-221-3298** for availability, pricing, and other special construction features.
