

## CLEVELAND VIBRATOR SHAKE-OUT TABLE

### FEATURES AND BENEFITS

- Can handle up to 12,000 lb. loads depending on size of screen deck.
- Simple, low-maintenance design: No exposed moving parts. Trouble free-Marsh Mellow Mount isolation. Vibrator bearings are pre-lubricated.
- Quiet operation, no noise from steel isolation springs, belts, pulleys or rotating crank arms.
- Low profile design, minimum height for product to enter unit.
- Open bottom construction permits sand to pass through unit.
- Available with UHMW liners on side deflectors.

Various sizes and capacities are available. Contact our fabricated equipment sales department for more information at **800-221-3298**.
