

CLEVELAND VIBRATOR WEIGH SCALE VIBRATORY PACKERS

FLAT DECK and GRID TOP MODELS

The Cleveland Vibrator Company FWT, Flat Deck, and GWT, Grid Top, vibratory weigh scale packers allow for filling, weighing and vibrating of bulk containers. Tables can be supplied with digital scale instruments that incorporate set points to control the start and stop of the fill device and vibration sequence. Vibratory weigh scales are available in a variety of deck configurations to meet your requirements

Additional features such as gross weight readout, analog signal, set points for automatic or semi-automatic operation are also available. CVC can also provide a complete system including fill device and roller conveyor system, as required. Contact our fabricated equipment sales department at **800-221-3298** for more information.
