CVC TRIAL / RENTAL POLICY

VIBRATOR DIVISION TRIAL UNITS

Occasionally, the Cleveland Vibrator Company can not offer a performance guarantee on the suitability of its vibrators to a particular application. This may be due to the uniqueness of the application, uncontrollable variables, or severe operating conditions. In such cases CVC may offer a unit to the customer for testing at the application site. The trial offer will be subject to the following terms and conditions:

- (A) Trial order must be covered with a customer purchase order.
- (B) If control accessories are desired with the trial unit, they must be purchased outright.
- (C) Customer is responsible for all freight charges to and from the installation site.
- (D) The length of the trial period is normally 30 days, including transportation time.
- (E) Should the trial unit prove to be unsatisfactory, it can be returned to CVC, freight prepaid. Credit will be issued subject to inspection of the equipment. Normal refurbishing and restocking charge is 20% of full list price.
