SOLUTIONS THAT KEEP YOU MOVING

**OUR CORE VALUES**

We are a **TEAM** of **RELIABLE** people, products & processes

We bring **INTEGRITY** & **EFFORT** to work every day

We act to achieve our Company Goals through achieving our **CUSTOMERS' GOALS**

We are **HUMBLE HELPERS** first, heroes last

We have **OPTIMISM** in our direction & improvement

**OUR PURPOSE**

To build a company you can rely on for years to come.

**OUR DIFFERENCE**

We offer direct support for **your** solution.

We provide dependable, high quality products with superior designs.

We strive for accurate and fast delivery to you, with over 95% of orders shipping on time.

**OUR PARTNERS**

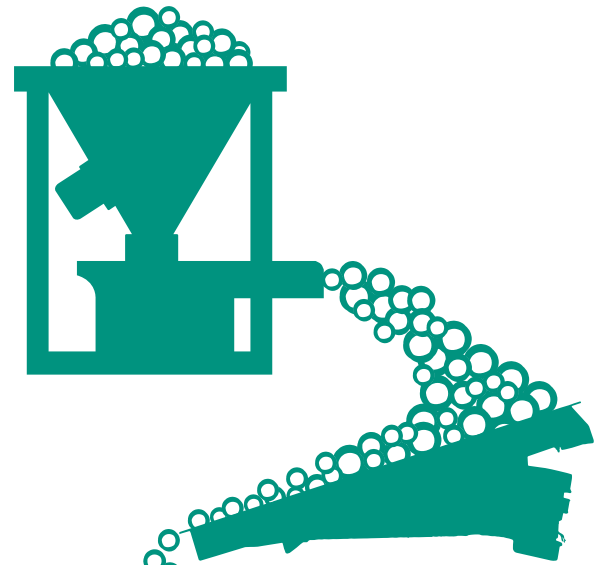

**URAS TECHNO**

The Exclusive USA Distributor of Uras Techno Rotary Electric Vibrators

**We Make Stuff That Shakes Stuff!**  
Industrial Vibration For Every Step of Your Process

**BIN • HOPPER • CHUTE • PIPE UNLOADING**

Achieve maximum cleanout & eliminate ratholing & bridged material with pneumatic & electric industrial vibrators.

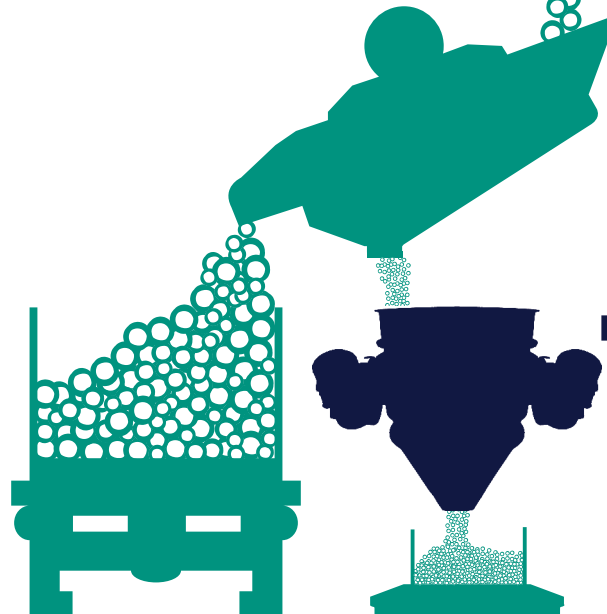

**FEEDING • CONVEYING**

Gently convey material or control material flow rates in production with vibratory feeders & conveyors.

**COARSE SCREENING**

Screen, classify, size, separate, & convey materials from 4" down to 250 microns (60# mesh) with vibratory screeners.

**HK TECHNOLOGIES**

We Make Sifting Operations **Better.**

**FINE MESH SIEVING & SIFTING DOWN TO 10 MICRON**

Fine mesh screening equipment for laboratory, pilot & production applications. Turnkey rescreening/remeshing services.

**COMPACT • CONSOLIDATE • DENSIFY • SETTLE • PACK**

Compact bulk material, settle molds, remove voids, flatten bags, & fatigue test with vibratory tables.

# Products Offering

## INDUSTRIAL VIBRATORS

Cleveland Vibrator Company's line of industrial vibrators feature a wide range of force outputs and construction types that are perfect for material flow challenges out of bins, hoppers, chutes or pipes.

### PNEUMATIC STYLES

- Air Piston Vibrators
- Single Impact Air Knockers
- Turbine Vibrators
- Ball Vibrators

### ELECTRIC STYLES

- Rotary Electric Vibrators
- Electromagnetic Vibrators
- DC Vibrators

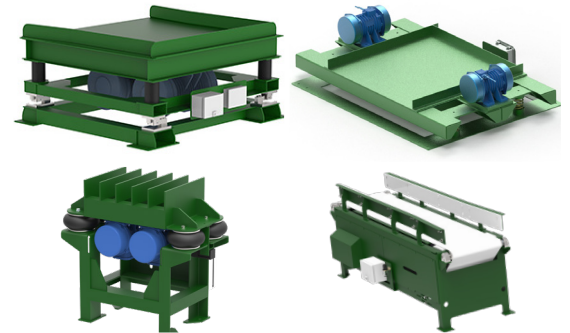

## VIBRATORY COMPACTION TABLES

Designed to compact, settle, de-air & pack a variety of products in bags, containers, and molds. Our goal is to achieve upwards of 20% to 30% compaction, shaking your entire load, not just part of it.

Models Include:

- Vibratory Belt Conveyor Tables
- Flat Deck Vibratory Tables
- Grid Top Vibratory Tables
- Foundry Shake Out Tables
- Live Beam Vibratory Tables

\*All Flat Deck & Grid Top Models are available in low profile designs. Digital scales that weigh and control vibration can also be added to both model designs.

## VIBRATORY FEEDERS & SCREENER CONVEYORS

Gently convey raw material from point A to point B in production with built-to-spec vibratory feeders. Screeners effectively size & separate materials requiring 4" screen openings down to 250 micron (60# mesh). A wide variety of styles & finishes with adjustable volumetric flow are available.

Feeder Models Include:

- Electromechanical Feeders
- Air Powered Feeders
- Volumetric Hopper Feeder
- Tube Feeders

Screener Models Include:

- Electromechanical Screeners
- Volumetric Hopper Screeners
- Gravity Flow Screeners
- Air Powered Screeners
- Portable Screeners

## HK TECHNOLOGIES

We Make Sifting Operations **Better.**

### FINES MESH SIEVES & SIFTERS

Sieve and sift materials down to 20 micron (635# mesh) in lab & pilot operations and large batch production facilities. Ultrasonic Conversion Systems and turnkey recreening/remeshing services makes HK Technologies your one-stop-shop for all your fine mesh sieving & sifting needs.
