

A beginner's guide to

EVERYTHING YOU NEED TO KNOW

Cleveland Vibrator's Vibratory Compaction Tables

Applications Include:

- Consolidation of any casted or molded material
- Product quality & fatigue testing
- Compact bulk material loads in containers
- Remove voids & air pockets in molds
- Flatten bulk bags prior to palletizing

Decrease material loss in transit

Decrease shipping costs by fitting more in each shipment

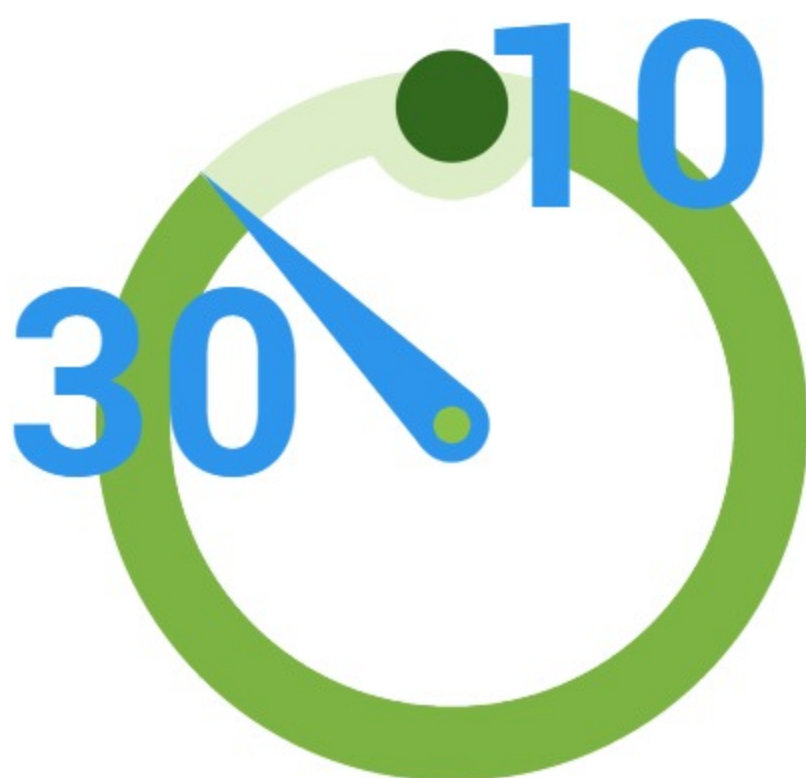

Reduce labor & time processing & packaging

Increase Product structural & surface quality

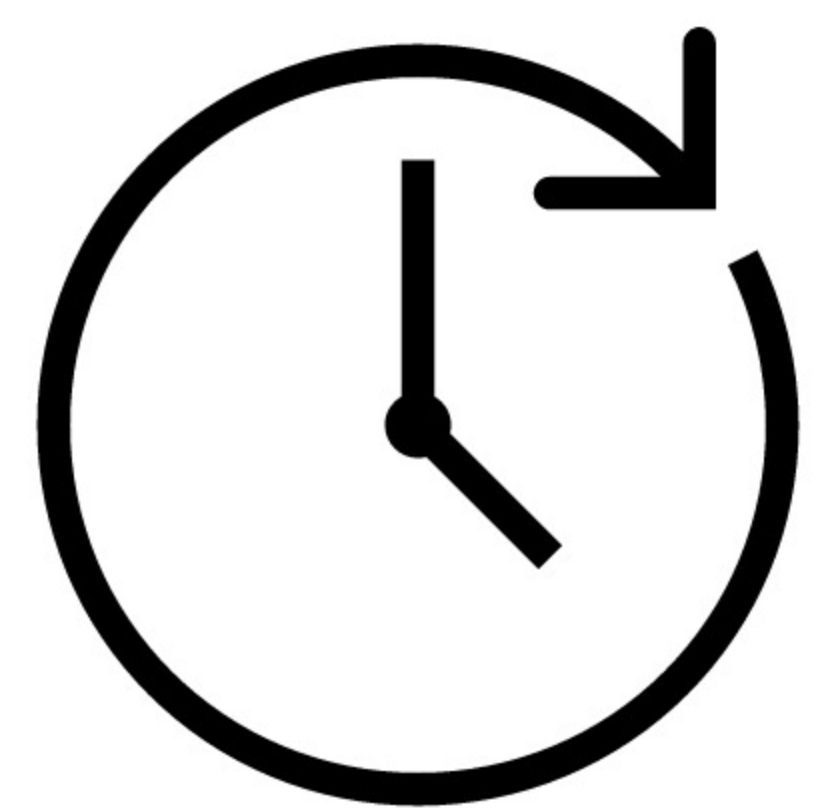

Designs available durable to handle loads of 20,000+ lbs.

Seconds it takes to achieve maximum compaction

Increase Percentage of Bulk Material Packed into Container Post-Compaction

Most vibratory table models rated for continuous duty

We Only Use Quality Components. Uras Techno Vibrators, Yaskawa Controls, Firestone Isolation Mounts, Mettler-Toledo Weigh Modules, to name a few.

60+ Years Design Experience
